Subject: RE: Response to 1-24-17 request for information
Date: Monday, February 27, 2017 4:56:00 PM

Having them date stamped on February 28 will be satisfactory.

Subject: Response to 1-24-17 request for information

Mr. Marshall:

As you know, we received a letter requesting information about our Pretreatment Program. The letter was stamped 24 Jan. 2017 and it was received in our office on 30 Jan. 2017. We are working on the response and wanted to clarify the date it is expected in your office by. I had been out of the office from February 20-February 26 with bronchitis. We had begun assembling the documents in early February and had intended to send them by this time. Some of the items are still being assembled by our Pretreatment Manager.

I would anticipate we will be prepared to mail and email (if desired) our response by tomorrow (Tuesday, February 28). If this timing is of any concern would you please let me know?

Thank you,

Mark Simms
